

Indicator:
Current Tobacco Use, Adult (Age 18-64)

View by:
Race/Ethnicity: American Indian or Alaska Native

Current Tobacco Use, Adult (Age 18-64), Race/Ethnicity: American Indian or Alaska Native

Source: California Health Interview Survey

Caution should be utilized when using the 2018 data. The single-year rate may be an outlier and may not be representative of the overall trend. This is due to variation that occurs with survey data. Caution should also be utilized when trending the 2016-2018 data with the 2019-2021 data due to a methodology change.

- Overall
- American Indian/Alaska Native (AI/AN), Any Mention
- No Mention
